Two page summary of "Word Yoga Day"

NSS organized "World Yoga Day " Dated 21-06-2017 ,Wednesday At 10.15am. This was actually proposed by 'ROYAL COLLEGE OF SCIENCE AND COMMERCE, Dombivli and conducted by Prof. Rajkumar Pillai.

Yoga is a physical, mental and spiritual practice which originated in ancient India. Yoga is a process in which man tries to bring his mind, body and soul together. Yoga is a Sanskrit word meaning to meet or be united. Yoga originates from Indian culture. People have been practicing Yoga since about 5000 years ago. Yoga does not have physical fitness primarily; in Yoga, people try to control their body and mind through mental focus and breathing methods. That's why in this session 30 students participated and they got knowledge of Yoga. Which is divided into six branches, namely Hatha Yoga, Raja yoga, Karma yoga, Bhakti yoga, Jnana yoga, Tantra yoga. There are also seven chakras of yoga styles namely Sahasram chakra, Ajna chakra, Vishuddha chakra, Anahata chakra, Manipura chakra, Svadhishthana chakra, Muladhara chakra.

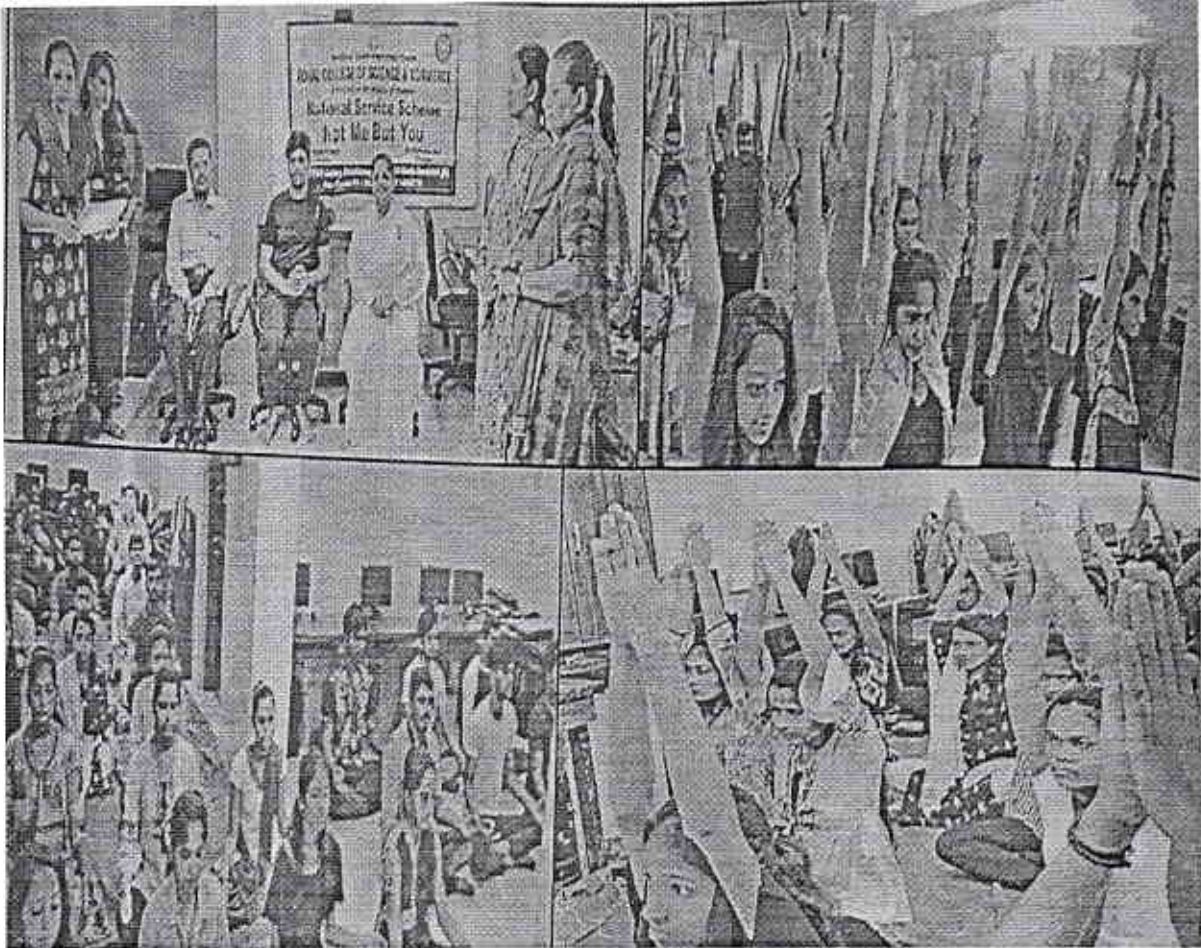

There are total 13 types of Yoga: Kundalini Yoga, Vinyasa Yoga, Hatha Yoga, Ashtanga Yoga, Yin Yoga, Iyengar Yoga, Bikram Yoga, Power Yoga, Sivananda Yoga, Restorative Yoga, Prenatal Yoga, Aerial Yoga, Acro Yoga.

Students also understood the benefits of Yoga. Because the Brahma Kumaris were given the Lecture on Yoga.

1. Yoga is the only process in which you can exercise without any equipment. Not only that but in Yoga, you can drive away your diseases without any medicine.
2. With Yoga, you can increase the flexibility of your body. If there is flexibility in one's body, then the pain is much less in that body. Doing Yoga can relieve your pain.
3. If a person does Yoga for 20 to 30 minutes daily, then his body does not get tired throughout the day.
4. Yoga is very beneficial for children. Yoga is also helpful in calming the mind, and it is also helpful in showing the right attitude. Doing Yoga produces positive thoughts, and it also takes the mind to do the right thing
5. Muscles get strong by doing Yoga. By going to the gym, doing weight exercises also strengthen muscles, but when you do Yoga, your muscles become strong, and at the same time, it becomes flexible also, so there is no arthritis and back pain.

It was helpful to all students.

Two page summary of Flag Hoisting

“Patriotism consists not in waving the flag, but in striving that our country shall be righteous as well as strong.”

Department: NSS Unit.

Program: Flag Hoisting

Venue:- Royal college of Science and Commerce.

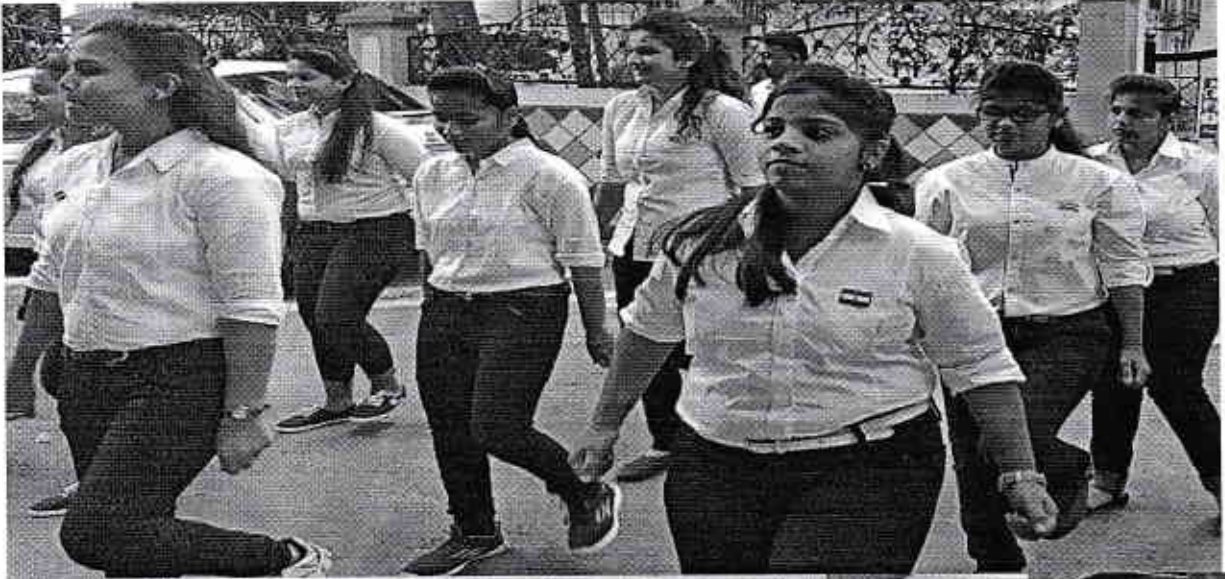

Date :- 15th Aug 2018 , Wednesday

Like every year, our college celebrated a special event on Independence Day with pomp and great joy. On that pleasurable day, a sense of pride and happiness could be seen on the faces of people. Everyone was excited to celebrate the program. The college was invited as a chief guest. Besides this, the parents of the students were also present there to attend that memorable ceremony with full enthusiasm. Everyone was feeling proud to be a citizen of his beloved country. All the arrangements were done by teachers and 20 students.

The event started with prayers at 9 o'clock. There was a large stage on which all the senior teachers, principal, and vice-principal were sitting on the chairs. After prayer, a parade was performed by some students. It was amazing that it aroused strong emotions in me for my loving country. After the parade, our school secretary and principal unfurled the flag together.

When they hosted the flag, all the people present there sang the national anthem. As the program was proceeding, we were becoming more excited. After that, the students presented various types of activities. Some students delivered speeches with great passion. In the end, the host invited the chief guest to distribute the prizes among the participant students.

NSS unit celebrates "Raksha Bandhan Celebration " Dated 26-08-2018 ,Wednesday At 10.15am. This was actually proposed by 'ROYAL COLLEGE OF SCIENCE AND COMMERCE, Dombivli and conducted by Prof. Rajkumar Pillai.

Festivals are an unforgettable part of our life. Though the ways and means of celebrating festivals vary from place to place, elements like sweetmeats and involvement of family members are essential to complete the festivities. Indians usher in the festive season with the onset of the month of August. The first festival we celebrate is that of 'Raksha Bandhan' a celebration meant exclusively for brothers and sisters. The day is celebrated with great joy and enthusiasm by siblings. The most exciting part of the day is when the sister ties a Rakhi on her brother's wrist, prays for him and expects a gift in return. When we spoke to a few kids we realized that a lot of them live away from their siblings, but still haven't lost enthusiasm for the festival! Rakhis and gifts are now sent by post and the person they most look forward to meeting at their doorstep is the courier postman. But the NSS unit decided to celebrate the Raksha Bandhan with the orphanage. .15 NSS volunteers went to the orphanage and celebrated the Raksha Bandhan. The main purpose was that they also enjoyed the Festival with us.

A majority of the NSS students were willing to be regular donors. The donors showed positive effects like a sense of satisfaction after the donation. A flag is the most important symbol of a country. Similarly, the national flag of India is a symbol of paramount significance for India. The national flag of India is a symbol of honor, patriotism, and freedom for the country. It represents the unity of the people of India in spite of the differences in language, culture, religion, class, etc. Most noteworthy, the Indian flag is a horizontal rectangular tricolor. Furthermore, the flag of India consists of saffron, white, and green.

After Independence day NSS students collected flags in the area of Dombivli.

In order to ensure proper disposal of the Tricolour after the celebration of Independence Day, 30 NSS students from our college collected discarded flags and handed them over to Vishnu Nagar Police.

Our aim was to sensitize citizens about proper flag disposal after the celebration of independence day.

Two page summary of “ Drug Abuse Prevention”

“Quitting smoking is easy. I’ve done it a hundred times.”

NSS organized "Drug Abuse Prevention" Dated 5th Sept 2019 ,at 10.15am. This was actually proposed by 'ROYAL COLLEGE OF SCIENCE AND COMMERCE, Dombivli and conducted by Prof. Rajkumar Pillai and Prof. Amol Matore.

Whenever someone takes a drug for reasons other than its intended use, it is considered substance abuse.

Adolescence is a time for experimentation for many youngsters, and this can lead them to engage in risky behaviors. Binge drinking, prescription drug abuse, and recreational drug use are all common problems on school and college campuses.

Teenage Drug Abuse and Addiction

Teens who abuse drugs may have a greater risk of developing an addiction when they are adults. It's important to know the difference between drug abuse and addiction. Many teens experiment with drugs, but aren't addicted.

Teen drug abuse can have long-term cognitive and behavioral effects since the teenage brain is still developing. Recognition and prevention of drug use can end an emerging problem before it starts. Setting a good example and having talks about drug use are strong tools for teenage substance abuse prevention.

Lecture was delivered by Dr. Vivekkumar patil sir and Prof. Rajkumar Pillai and Prof. Amol Matore sir.

Students better understood the effect of drug addiction. The session was attended by 30 students.

"A fit body, a calm mind, a house full of love.

NSS organized "Health Checkup" Dated 11-11-2019, Monday at 10.15am. This is actually proposed by 'ROYAL COLLEGE OF SCIENCE AND COMMERCE, Dombivli.' Conducted by Prof Amol Matore and Prof. Rajkumar Pillai.

A health camp was organized by NSS units for 50 students and staff to spread awareness about health check-ups and maintaining a healthy life. The program started at 8 a.m with the introductory speech given by our respected principal sir and head of the doctor's team which came to our college. By 9a.m we were all asked to make a line and get our height and weight checked to calculate BMI (body mass index) which explains whether the person is unhealthy or not. My BMI was 19.5 which comes under normal range. By 1 pm every student with staff got themselves checked for BMI, blood report and other health conditions if any. We all were advised some type of food and exercises by the doctors to maintain a healthy lifestyle. I was advised to get my eyes checked up for spectacles as they think my number has increased. Our class had the maximum number of healthy kids and thus we were appreciated by the doctors and principal sir as well. We all were happy to know about so many things which we can learn from doctors. I hope our College organizes these types of campaigns each year for a healthy student count and less absentees. Every college should organize these kinds of campaigns to ensure a healthy environment in college. The program ended with an overall report by the doctors about the health of students.

A flag is the most important symbol of a country. Similarly, the national flag of India is a symbol of paramount significance for India. The national flag of India is a symbol of honor, patriotism, and freedom for the country. It represents the unity of the people of India in spite of the differences in language, culture, religion, class, etc. Most noteworthy, the Indian flag is a horizontal rectangular tricolour. Furthermore, the flag of India consists of saffron, white, and green.

After Republic day 30 NSS students collected flags in the area of Dombivli.

In order to ensure proper disposal of the Tricolour after the celebration of Republic Day, NSS students from our college collected discarded flags and handed them over to Vishnu Nagar Police.

Our aim was to sensitize citizens about proper flag disposal after the celebration of Republic day.
