

TWO PAGE SUMMERY ON GREEN CAMPUS INITIATIVE

Green campus Initiative has been initiated in the year 2018.

This activity is actually proposed by: ROYAL COLLEGE OF SCIENCE AND COMMERCE, Dombivli.

To inculcate the value of green campus by planting different plants. The green campus concept offers an institution the opportunity to take the lead on redefining its environmental culture and developing new paradigms by creating sustainable solutions to Environmental, social and Economic needs of mankind.

A Green Campus is a place where Environmental friendly practices and education combine to promote sustainable and eco-friendly practices in the campus.

They understood the importance of Eco Friendly Activities, Plantations and learnt various important aspects of environment.

TWO PAGE SUMMARY ON RABIES VACCINATION OF STRAY DOGS

'Rabies Vaccination of stray dogs' Activity is conducted on 28th September 2019, Saturday.

This activity is proposed by ROYAL COLLEGE OF SCIENCE AND COMMERCE, DOMBIVLI (E)

The main purpose is to raise awareness about the impact of rabies on human and animal health, and to advocate for the prevention and control of the disease.

They understood that, Rabies is a deadly viral disease that affects the nervous system of mammals, including humans. It is primarily spread through the bite of an infected animal, and can be prevented through vaccination of both humans and animals.

(DYET's)

ROYAL COLLEGE OF SCIENCE & COMMERCE

The purpose of this activity is to raise awareness about the importance of vaccinating pets, educating Students about how to prevent the spread of the disease, and advocating for access to life-saving treatments for those who have been exposed to rabies.

They understood the importance of importance of vaccinating pets & how to prevent the spread of the disease. The campaign also highlights the importance of collaboration between human and animal health sectors to achieve a world free of rabies.
